

TWO MEN HELD ON CHARGE OF MURDER

Father and Brother-in-Law of Dead Man Are Under Suspicion.

CORONER'S HEARING TO-DAY

Bad Blood Existed Between Cable and the Accused for Many Years.

[Special to The Times-Dispatch.] GREENSBORO, N. C., November 11.—Daniel F. Cable and his son-in-law, Hight Elliott, both well-known and substantial citizens of Green Township, Guilford county, were placed in jail here this afternoon, charged with the murder of Simpson Cable, a son and brother-in-law of the accused. Simpson was found yesterday morning in a deep gully near Elliott's and Cable's home, twenty miles from Greensboro, badly mutilated, but living. He was taken into Elliott's home and physicians summoned, but he died without regaining consciousness this morning.

John Amick and Henry Holt, who found him, came to town last night, informed the sheriff of the occurrence, and stating that Elliott and Cable directed them to the point where the man was found, these men saying that he was there at 8 o'clock the night before, and was not worth troubling to see what was the matter with him.

The three men had been bitter enemies for years on account, it is alleged, of Simpson protesting against the Elliott distilleries the father and Elliott were running. Last night of officers were sent to the scene of the trouble, and investigation showed a block distillery near Elliott's home and in 200 yards of Cable's body. The result of these investigations, telephoned here, caused the arrest of Henry Holt as one of the owners of the distillery, and the subsequent death of Simpson Cable, resulted in the arrest of his father and brother-in-law, all of whom are in jail awaiting result of investigation of the coroner's jury.

No suspicion of connection with the murder attaches to Holt.

Daniel Cable declares that, although he saw his son lying in the gully at 8 o'clock Tuesday night, he did not interfere because the boy was subject to epilepsy and was at enmity with him, and not knowing he was hurt, thought it best not to provoke any disturbance by looking after him. The facts show that Simpson Cable was not drinking Tuesday afternoon when last seen going towards Holt's distillery, and that near there a fight occurred between him and his father and brother-in-law, still recently running.

When placed in jail Cable was pro-

duced in declarations of innocence of his son's murder, but Elliott said nothing. Holt, who was already in jail, charged with illicit distilling, exclaimed as his neighbors arrived, "God knows we are in a pretty mess."

The prisoners were isolated, and not allowed communication with any one pending investigation Friday.

An Indiana Woman Tells How She Was Cured by the Use of Dr. Williams' Pink Pills.

There are women whose lives are continual rounds of suffering simply because the blood lacks the strength to make the functional activities of the body normal, without which no woman can enjoy perfect health. Dr. Williams' Pink Pills are in this respect a blessing to women since they build up and strengthen the blood and repair the harm caused by overwork and worry, causes of a large percentage of women's ills.

Miss Florence M. O'Brien, a dressmaker, of No. 305 Flora street, Washington, Ind., gladly tells of the benefit she received from Dr. Williams' Pink Pills, as follows: "I had terrible cramps and vomiting spells regularly which lasted for several days. I was dizzy and awfully sick, was very much constipated, my stomach became disordered and bloated and at last got so sore and tender that I could not bear the least pressure upon it. The doctor with whom I treated said my trouble came from lack of out-door exercise and too much work running the sewing machine. But he did not help me and I found no relief until, upon the recommendation of a friend, I began taking Dr. Williams' Pink Pills. I was soon helped and, after taking a few boxes, I was completely cured. I have remained in good health and recommend Dr. Williams' Pink Pills everywhere I go."

Dr. Williams' Pink Pills are the greatest discovery of modern times for suffering women. They are a positive cure for their particular ailments, are unequalled as a blood builder and therefore as a tonic for the whole system.

If you are interested in the remedy that cured Miss O'Brien, write today for our booklet, "Plain Talks to Women." It is free and will be sent postpaid.

Dr. Williams' Pink Pills should be used in all diseases caused by thin or impure blood, as anemia, rheumatism, stomach trouble, after-effects of the grip and fevers, neuralgia, sick headaches and many forms of weakness.

Dr. Williams' Pink Pills are sold by all druggists, or sent postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by Dr. Williams' Medicine Company, Schenectady, N. Y.

DAUGHTERS WANT STATE ROAD BUILT

Urge Great Highway From Jamestown to Yorktown by Federal Aid.

[Special to The Times-Dispatch.] WYTHEVILLE, VA., November 11.—The second day's session of the Daughters of the American Revolution of Virginia was called to order here this morning.

Mrs. Stephen Putney introduced James C. Gipe, who made an able and interesting address on conservation of forests and streams. At the close, Mrs. D. B. Read moved that this body frame a resolution requesting the conservation work in Virginia to present before the State Board of Education. The motion was carried and a committee appointed to draw up these resolutions.

Mrs. Putney moved that the \$7.55 balance of the Real Daughters fund be devoted to the completion of the Virginia room in Memorial Hall. The Daughters were asked to use their influence to induce their Congressmen to vote for the bill to appropriate \$100,000 to build a road from Jamestown to Yorktown by way of Williamsburg.

At the afternoon session officers were elected as follows: Mrs. Samuel W. Jamison, State regent; Mrs. J. H. McChes, vice State regent; Miss Anna Gleaves, State secretary. Mrs. Wood nominated Mrs. E. C. Hammer for State treasurer, and she was unanimously elected. The State regent asked the privilege of appointing committees, which was granted her. NORTH CAROLINA FARMERS ABSENT

State's Representation at the Farmers' National Congress Was Small.

[Special to The Times-Dispatch.] RALEIGH, N. C., November 11.—It is considered a most remarkable fact that nearly 700 delegates heard from other States in every part of the Union, there were not more than seventy registered from North Carolina for the Farmers' National Congress, just adjourned here. In past years the States in which these congresses have been held, furnished from 800 to 1,000 of the farmers who attended. There were something like 400 farmers in this State commissioned as delegates by Governor Kitchin. Unfortunately most of them were commissioned too late for them to make arrangements to attend. The congress is declared to have been especially profitable for all who attended.

North Carolina Fruits.

State Horticulturalist W. M. Hutt and his assistant, S. P. Shaw, left to-day for Council Bluffs, Iowa, to attend the National Horticultural Convention. They carried with them splendid specimens of apples and other horticultural products of the State, to be exhibited in connection with the convention and to compete for the prizes offered. They will be carried later to the National Show, where Mr. Hutt is confident that North Carolina will be awarded some of the highest premiums.

ADMIRAL CHESTER'S CHART TO REFUTE DR. COOK

Actual Positions of the Sun Contrasted with Those Described by Dr. Cook to Show That the Explorer Did Not Reach the Pole, and That He Was Going South Near Latitude 82°, Off Cape Thomas Hubbard, When He Declared He Was Going North in Latitude 86°, 280 Miles Away, Between April 3 and April 7, 1908.

Dr. Cook's narrative declares that between April 3 and April 7, 1908, going northward, he saw the sun at mid-night successively in the positions shown in Group "D." Admiral Chester points out that in that latitude the sun's successive positions on these dates were as indicated in Group "A." and that, if he had seen the sun in the positions shown in Group "D." as he asserted he did, Dr. Cook must have been at the position indicated on the map near latitude 84 degrees, instead of near latitude 80 degrees. Admiral Chester also points out a remarkable coincidence illustrated on the chart, namely, that if Dr. Cook's further north had been between 81 degrees and 82 degrees, as his two Eskimos declared to Perry's party, and if he had been going south instead of north at the rate of twelve miles a day, he would then have seen the sun between April 3 and April 7 in the successive positions shown in Group "B," presenting exactly the same picture to the eye as the impossible picture in Group "D," declared by Dr. Cook to have been witnessed by him going northward, in the neighborhood of latitude 80 degrees.
